The Thirteenth, Forty ninth and Fifty second Regiments were received in the usual form on Saturday, by a dinner at the Soldiers' Home, and speeches in the State House yard by Governor Morton and J. W. Res. About 1,500 men participated in the reception.

We are pained to learn that Mrs. Stallard, a most estimable lady living on the northwest corner of Vermont and Massachusetts avenue. was, on Thursday last, thrown from a buggy, and so seriously injured that the probabilities are that she will not recover.

The residents on Kentucky avenue are complaining of the filthy condition of that thor oughfare, but similar complaints are so general all over the city that it is useless to notice special cases. The surest remedy for these and similar evils is to reform the administration of city affaire.

A reception of the following regiments will take place to-day: The Eighth, Eighteenth, Forty-fourth, and a detachment of the Twentysixth; in all about 1,300 men. No artillery salutes will be fired on this occasion. Dinner will be served at one o'clock, and the reception will take place at two, in the State House Grove, unless the weather should be unfavorable. that care it will be had in the Tabernacle.

Another accident happened in firing the cannon on Saturday, by which another man is maimed for life. By a premature discharge John Lageman, one of the rammers was badly burnt on the arm and side. His thumb will have to be amputated, and he will probably recover from his other injuries. It is about time this useless and senseless firing of the cannon at receptions is stopped, before any more men are killed.

The trial of Quartermaster Taylor has been commenced. The evidence already taken before the Commission is pretty heavy on "loy alty" and "patriotism." Captain Taylor is charged with getting about a \$100,000 start of the Government. Should the trial be vigorously and thoroughly prosecuted, if reports be true, some rich developments will be made, implicating other "loyal" gentlemen.

RECELESS RUNNING. - On Saturday some seven or eight hands belonging to the Rolling Mill got on a hand-car and started up the road as hard as they could run. In the Union Depot they came in contact with one of Adams' Express Company's wagons, knocking the horse, wagon and driver all in a heap, breaking a wheel, scratching the horse, and bruising the driver, Mr. Tate. Unfortunately, none of the men on the car were injured. Such reckless speed, with a hand-car, in a place crowded as the Union Depot generally is, should be severely

MAD STONE -The Terre Haute Journal says of the mad stone in the possession of Mrs. Mary J. Taylor, of that city:

"There is no doubt about the efficacy of this singular and valuable stone. Hundreds of persons afflicted by dog and snake bites by timely using it have preserved their lives, and there is no necessity for any one to die from the effects of bydrophobia if they are within any

reasonable distance of this city. The fact of its

existence and wonderful curative powers should be spread far and wide for the benefit of the unfortunate sufferers from rabid bites." If there is any curative power in this stone it should be sent to this city, as there are a number of persons here that have been bitten.
